Health, Safety & Environment at Offices

Health and safety of the employees is of paramount importance for any organization. At the same time, it's critical to ensure that a healthy work environment needs to be provided to employees so that they can contribute to the organizational growth effectively. Sensitization of the employees towards a greener and healthier environment should be done to create a better place to live in.

This highly interactive gamified course would subtly convey all the messages. With the help of scenarios and job aids, the learning becomes more effective. eJournals help in recalling the important concepts learned during the training. Guided Do-it-yourself (DIY) approach helps in making the learning permanent.

This training is highly effective for all levels of employees in the organization, that are particularly working in offices.

It would take approximately one hour to complete this course.
